Spacious drawers, adjustable shelves and rods help in organising the space

Option to leave the body visible in the oak decor

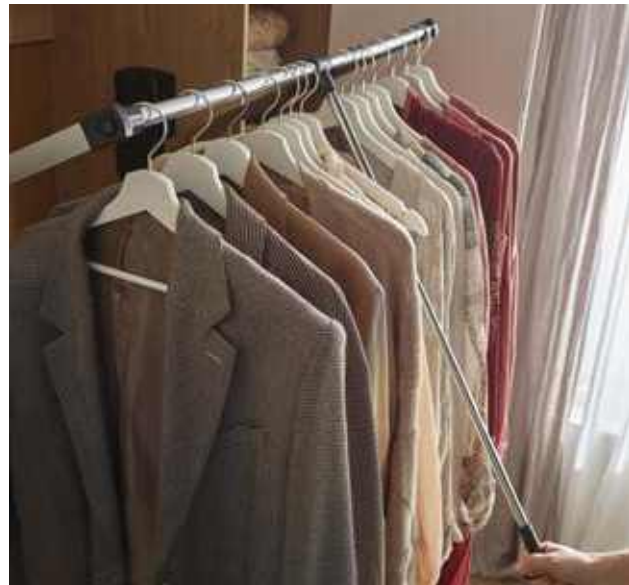

MAXI

Maxi equipment includes a drop-down rod (pantograph), a trouser rack and containers with soft- closing drawers.

The drop-down rod provides easy access to high-hanging clothes

Interior lighting

The small container with drawers can be mounted on the left or right inside the wardrobe. Use the free space for long items, e.g. an ironing board.

STOR WARDROBE SYSTEM

WARDROBE HIDDEN IN THE WALL

In addition to customised dimensions, Stor comes with the option of a built-in wardrobe. Just imagine: a wardrobe that blends in perfectly with the wall, creating a unified whole. An unused recess is given a new lease of life as a discreet and spacious wardrobe.

TWO IS BETTER THAN ONE

Within the Stor system, you can combine several modules into one coherent sequence which results in a perfect fit in large recesses and long walls. This solution opens up numerous storage possibilities! Just imagine: a wall or a recess transformed into an elegant and roomy storage space for your clothes, sports equipment, suitcases, or even Christmas decorations.

WARDROBE AS DIVIDING WALL

The Stor wardrobe system is a storage solution and a space organiser. Thanks to clever solutions: cover panels, side closets with mirrors and side panels, Stor can divide large rooms into smaller, functional zones.

NATURE COLLECTION

COLLECTION FEATURES

The Nature collection was created out of a deep appreciation for natural materials and the belief that every space can be utilised wisely and beautifully. Nature easily adapts to different rooms: large, open spaces, those traditionally divided into smaller rooms, as well as the smallest ones, which require special attention when furnishing. The solid bodies of the furniture can accommodate a lot and the slanted wooden legs on which they stand give lightness to the entire interior.

Designers
TABANDA

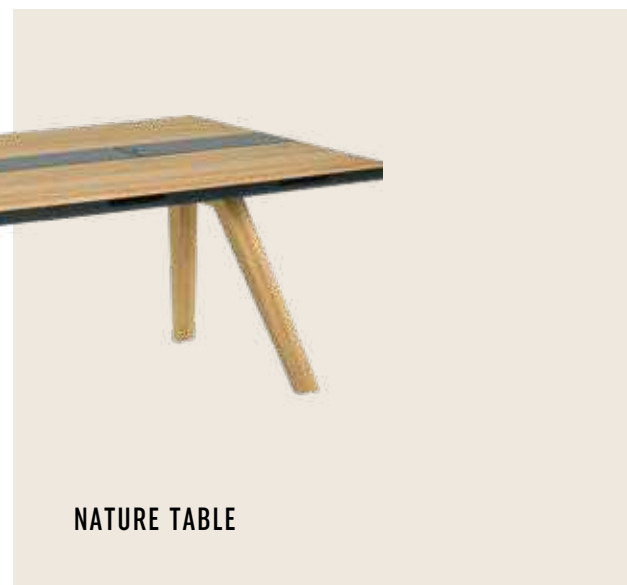

TABLE WITH NATURAL OAK TOP AND DRAWERS

The Nature table is made of noble oak wood, with each specimen being unique and exceptional.

A powder-coated compartment, resilient enough to accommodate hot objects without damaging the material's structure

The table has six spacious drawers

Slanted wooden legs are an element shared by all furniture in the Nature collection

NATURE TABLE

NATURE COLLECTION

The double-sided chest of drawers will subtly divide large areas, assigning them new functions.

If you want your bedroom's atmosphere to imitate nature, a bed with a wooden headrest made of solid oak is a great choice. Its open-work design will bring a touch of lightness and airiness. You can also choose a full headrest inclined at a comfortable with a soft edge.

CONCEPT COLLECTION

COLLECTION FEATURES

Need an idea for a teenager's room? The Concept collection can cleverly accomoadte all adolescent matters. And when your teenager wants a change, it will be easy to replace the coloured fronts and create a brand-new room. A powerful touch changes everything. Blue, red, saffron,black, pink and oak décor - choose your front colour and give your interior any character you want. The collection stands out are its silicone sleeves in the openings, which function as handles - always matching the colour of the front. The natural oak legs lend lightness to the capacious, geometric solids. The height of the legs makes cleaning easier.

JOANNA LECIEJEWSKA

Concept will work in a first-grader's room as well as in a teenager's universe.
